Physical therapists (PTs) are experts in the art and science of the evaluation and treatment of human movement dysfunctions. We care for people of all ages and treat a variety of muscle, joint and neurological conditions.

Conditions we have successfully treated:

- Arthritis
- Chondromalacia
- Patellofemoral Pain
- Ligament Sprains
- Tendonitis/Bursitis
- Tendon/Muscle Strains
- IT Band Syndrome
- Post Surgical Conditions

What are my treatment options?

- Drugs
- Epidural Injections
- Corticosteroid Injections
- Physical Therapy*

Advantages of Physical Therapy:

- No side effects
- Cost-effective
- Supported by clinical research*
- Customized to treat the underlying cause

If you're ready for relief,
and tired of "masking" your pain,
treat the cause, not just the symptoms!

Your Recovery Process:

- Pain relief
- Recovery of knee motion
- Recovery of strength
- Functional/sports retraining
- Independent home/health club program

Components of Your Care:

- A thorough biomechanical evaluation
- Extensive patient education
- A customized treatment plan
- Gentle hands-on techniques to relax the muscles
- Effective joint mobilization techniques to decrease stiffness
- Pain relieving modalities such as ice, heat, ultrasound or electrical stimulation
- Targeted stretching for tight muscles
- Progressive strength training
- Balance and muscular re-education

Everyone is different. You may require one or two visits, or an extended care plan over several weeks or months.

Make an appointment today.
